

RE-DEK is a clear, non-yellowing and permanent traction system for non-skid surfaces. RE-DEK's chemistry provides the ultimate balance concerning weight, ease of application, clear, non-yellowing appearance and mega traction. (Note: Re-Dek can be removed if needed by wet-sanding)

RE-DEK - You'll stick to it!

1

Wash off dirt with soap and water. Let dry.

2

Shake well for 2 minutes

3

Fill tray with 1 oz. of Re-Dek to saturate foam roller.

(Note: do not pour in all liquid)

4

Saturate the roller

5

Even out roller on lid

7

To start, shake well & pour small amounts directly on surface, then roll-on one coat till even. Let dry 12 hours before use.
